INDUSTRIAL EXPERTISE & DIGITAL TRANSFORMATION

More than expertise, we build industrial performance

DKOMA supports industrial companies in their transformation towards smarter, more efficient and more sustainable operations.

OUR AREAS OF INTERVENTION

Areas of expertise for your industrial performance

Industrial Audit
Assessment of facilities, processes and organization.

Operational Excellence
Continuous improvement, flow optimization and performance management.

Maintenance & Reliability
Maintenance strategies and equipment availability to limit downtime.

Project Management
Planning, coordination and monitoring to keep costs, schedules and quality on track.

Management Consulting
Support for leaders and teams in their organization and decisions.

Digitalization & Automation
Data, digital tools and automation serving your operations.

Commissioning & Start-up
Testing, verification and controlled start-up of your facilities.

Training
Know-how transfer to build your teams' skills.

ABOUT DKOMA
